

Meritor Parts

Meritor Parts - The Meritor Company is a leading international dealer built upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems with a range of modules and parts to the original equipment makers and aftermarket equipment in the transportation and industrial sectors.

Meritor values the requirements of their customers to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of experienced experts.

Meritor strongly believes in only hiring future focused people. These top-caliber individuals can rapidly adapt to changing environments and freely demonstrate the level of commitment and performance necessary to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their workers various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the needs of their global engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group which is committed to ensuring optimum growth at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 nations.

The supplier development network is particularly situated to be able to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each part of the company. The DFSS or also known as Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean techniques.
