

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment can automatically activate to both unload and release as soon as the bumper release touches the side of a dumpster. After dumping is completed, the hopper is able to return to original upright and locked position. This particular piece of machinery also comes with a cable which enables operation from the seat of the forklift to be able to have the option of manually unloading the hopper. There is a locking chain provided to lock the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish to maintain durability.
