

Forklift Electrical Parts

Forklift Electrical Parts - Lift trucks can be specifically labeled to be used in hazardous locations. A marked truck indicates the design has met the lowest standards of ANSI/UL 558 utilized for engine powered lift trucks or ANSI/UL 583 meant for electric trucks for the type of label put.

Applications for labeled forklifts may be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Ask your local insurance carrier and Fire Marshall for additional info concerning the permitted uses of industrial powered lift trucks in your application.

If the specific lift truck meets the outlined criteria, labels can be attached. A labeled lift truck would show the type of designation placed on the nameplate and will have a properly corresponding label put.
