

Rockwell Parts

Rockwell Parts - AxleTech International is a premier provider in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its customers' chosen supplier. AxleTech strives to meet and exceed their customers' expectations for delivery, quality, service and technology. They believe in working in an environment which encourages the highest integrity with empowered teamwork, combined with a unrelenting pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively using principals of ecological safety and stewardship in how they do business. The business has put different programs in place to be able to articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever comments or questions, as they are happy to share and promote this policy with a greater understanding of their efforts. They are extremely devoted to improving and preserving the natural world. AxleTech has an EHS program which not just protects the environment but which likewise actively protects their neighbors and employees also.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles utilized for both military and commercial applications. These applications range from airport ground support to construction equipment. AxleTech particularly designs axles to meet certain application demands. They have more than one thousand different axle specs within their existing offering. With more than 100+ years of skill and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in many military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have extra details that could be found in the "ISAS" product collection.
