

Clark Forklift Parts

Clark Forklift Parts - At this time, there are over 350,000 Clark forklifts performing worldwide, and upwards of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specific components intended for 20 distinctive models of forklifts and automated equipment. Your regional Clark Supplier is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very impressive worldwide support network. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's recurrent goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the internationally accepted quality standard ISO 9001 for all of their manufacturing facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the extremely economical and advantageous structure of "Lean Production" for its assembly facilities and use of resources. This structure was established to acknowledge the most successful approaches of production plant management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the efficiency and excellence of their products while minimizing costs. The contemporary value engineering agenda combines innovative product improvement and provides improved client support and service within the industry.
